BiH Expands High Performance Computing Capabilities with Key Hires

ATLANTA, GA – 1 May 2008: BIH, including AvarSYS, Inc. and XS International, Inc., has secured additional sales and technical expertise for the company's High Performance Computing (HPC) solutions. The company added new staff to focus on solution sales, services and implementation for its cluster computing, grid computing and visualization solutions. These hires greatly expand the company's reach into key markets, including Petroleum, Scientific and Engineering, Pharmaceutical, Finance and Government sectors.

Nate Furhiman joins AvarSYS from LNXI where he was a Systems Engineer focused on developing and integrating Linux clusters. Furhiman brings extensive HPC systems, software and Operating System expertise.

Philip Carroll, previously Federal Territory Sales Manager at Arrow ECS, an IBM Distributor, leads the IBM Partner Program at Avarsys. His experience in IBM solutions, government contracts and vendors rounds out the team working with Federal Agency customers, including DoD, DOE, DHS, HHS, IRS and more.

Heading up Business Development, H. West Richards brings experience in building alliance partnerships to expand technology solutions offerings and accelerate market growth. Prior to joining BIH, he held senior management positions at K2, Anderson Business Consulting and PMG.net. Richards also spent seven years on Capitol Hill as a Congressional staffer where he held a Chief of Staff position.

Fred Hughes and Jim Spruell join BIH Board of Advisors and Special Projects Committee. Mr. Hughes brings 20+ years of broad experience including highly parallel grid computing, digital analytics and data development and distribution, Web and multiplatform integration, high availability OLTP, enterprise architecture development, software development methodologies, and large scale computer operations. Mr. Spruell is the President of Logical Resources, and having recently retired from Lockheed Martin where he initiated one of the military's most ambitious undertakings, brings over 42 years of electronic, hardware, software, and system integration experience.

About BIH

Bone International Holdings (BIH) is the parent company to XS International, Inc. and AvarSYS, Inc. XS International was founded in 1990 to provide lower cost computing alternatives via refurbished midrange and mainframe systems. Eighteen years later, XS International, Inc. has three divisions that meet IT life-cycle challenges to maximize value and minimize risk: XS Asset RecoverySM, XSnet ProductsTM & XSi SmartSourcingTM. AvarSYS, founded in 2004, is a technology solutions provider specialized in advanced visualization and high performance computing systems. BIH is committed to protecting the environment by adhering to a strict "No Landfill" policy, XSi also does not export any eWaste. For additional information on XS International, Inc. or AvarSYS, Inc., visit www.xsinternational.com.
